

## LITHIUM GREASE MP 2

### PRODUCT DESCRIPTION

A high quality multi-purpose grease recommended for use in medium- and light-duty applications found in manufacturing facilities, automobiles, agricultural and construction equipment. Applications include, but are not limited to, roller bearings, plain bearings, thrust bearings, gears, electric motors, presses, winches, bushings, wheel bearings, chassis lubrication, universal joints, ball joints, tie-rod ends and steering knuckles.

### BENEFITS

- ✓ Highly versatile
- ✓ Good corrosion protection
- ✓ Good sealing properties
- ✓ No adverse effects on sealing

### USAGE

Follow the recommendations from the equipment and / or bearing manufacturer. Check compatibility with the grease applied previously and if necessary purge bearings or clean the application area prior to application. Do not over-lubricate.

### DOSAGE

To be used whenever required.

## GREASES

### Packaging details

Art. No.:	68771
Content:	400 gr
Packaging:	12x400 gr
Pallet:	97 cartons
Languages:	EN, DE, FR, ES

### Technical specifications

Performance level DIN 51825:	K 2 N-20
Thickener:	Lithium soap
Odour:	Characteristic
Colour:	Brown
